THE CHRONICLES OF AESTHETICS

WELCOME TO ICAD 2023 IN BANGKOK

Where the Chronicles of Aesthetics begin!

Dear Friends, Dear Colleagues,

We are thrilled to invite you to the International Congress of Aesthetic Dermatology 2023 from November 23rd to 25th, 2023.

The Chronicles of Aesthetics theme will take you on a captivating journey where science, art, and aesthetic medicine converge. With a carefully designed program, our experts will share their insights, cutting-edge research, and innovative techniques, ensuring an immersive experience for all attendees.

ICAD 2023 gathers brilliant minds and passionate souls from every corner of the globe. From seasoned professionals to budding enthusiasts, this is where ideas take flight and inspiration finds its home. We have curated an exceptional lineup of world-renowned speakers and experts who will enlighten, inspire, and challenge your perspectives.

Attending ICAD 2023 promises to be a profoundly fruitful experience, where you can glean invaluable insights, forge meaningful connections, and elevate your understanding of aesthetic medicine to new heights. Beyond the groundbreaking scientific presentations and panels, immerse yourself in an awe-inspiring exhibition, where the latest products, technologies, and services converge to redefine the boundaries of aesthetic medicine.

We invite you to embrace this unparalleled experience at ICAD 2023. Together, let's script the next chapter in **the Chronicles of Aesthetics**.

See you in Bangkok!

Best regards,

The ICAD 2023 Scientific & Organizing Committee

LASER ODYSSEY:

Aesthetic Mastery through Light

OVERVIEW

Step into the world of cutting-edge laser aesthetics with our intensive advanced laser course that blends the realms of aesthetics and technology in an unforgettable journey. **"Laser Odyssey: Aesthetic Mastery through Light"** is a comprehensive program designed to equip participants with the knowledge and skills to master the intricacies of laser treatments for aesthetic enhancements.

This course features lectures and hands-on workshop presented by a large and diverse group of the world leaders, and innovators in the fields of lasers and energy-based devices. The course objectives will focus on practical tips for physicians to learn on emerging technologies and treatment pearls. It also offers a wonderful opportunity to have hands-on experience and interact with world leaders in the field lasers and EBDs in the same venue. The target participants of this pre-congress laser & energy-based device course include dermatologists and aesthetic physicians who already had a well-developed basic understanding of the uses of lasers and energy-based devices and are looking for emerging lasers and EBDs in aesthetic dermatology to apply to your daily clinical practice.

LEARNING OBJECTIVES

1

Understand the principles and types of lasers used in aesthetic treatments.

2

Apply advanced laser techniques for skin rejuvenation, scar revision, body contouring, and more.

3

Address complex aesthetic cases, including pigmented lesions, melasma, and more.

4

Communicate effectively with patients, personalize treatment plans, and manage expectations.

5

Ensure safety and professionalism in laser aesthetic practice.
